Students Hear Talk About Tuberculosis

That the tuberculosis test is being administered to a college boy and girl was stressed by Mrs. LeRoy DeKoninck, of the Grand Rapids anti-tuberculosis society in her talk to the students on Wednesday, March 8.

Mrs. DeKoninck pointed out that the contact occurs in an early stage, and when the germ enters the body it becomes a new one. There are perhaps many people who have tuberculosis and are not aware of it. Therefore, an immediate cure is not obtained.

The information was given at the Monday and Friday after Mrs. De Koninck’s talk the Catholic Junior College faculty were given an opportunity to have the tuberculosis test at the college.

John Charles Thomas, Opera Star, States Preference For Hamlet Role

The house lights had been turned on, and a smattering of applause, mingled with the sound of the hiss, from the walls of the auditorium, while John Charles Thomas, the Metropolitan Opera star, sat in a private dressing room, his face a picture of concentration. His ruddy face was wreathed in a smile, as he waited for the moment when he would step out onto the stage, to the applause and admiration of the audience.

Fortunately, the intellect of our students is broad and they are quickly rebellious in the classroom by anyone interested. On the other hand, let's consider the fact that we need to read for a change, a delightfully written bit about the children and women. This is a great deal of information that we need to read, but if it adds a little fun to our reading, it will be worthwhile to do so. And if the editor of Representative Women has that swingy, lilting, interesting manner of writing let her keep it now and forever. After reading, I expected to see features with a great deal of news! Bishop Advocates Spread Of Faith By Catholic Youth

(Continued from page 1) The universal patron of the church. We are living in troublesome times today, and we need the help of God. Our church needs the help of the people. Our bishop, Monsignor M. J. O'Leary, has invited us to come to the assistance of the church. He says, "Do something positive by example to plant the kingdom of God on earth. Out of your faith, your culture, your religion. It's a great comfort to have it. We have it. Why not others? It's a great comfort. I think we are fortunate to have the Catholic faith." "We should learn to know that faith." The Bishop explained that truth doesn't change. That which is not true. Non-Catholics accept a theory today and reject it tomorrow because they have no faith. They know that they are running away from a God who is watching everything that we do. We may not win or lose, but we will be happy. The opportunity to help others is great. Many young people today are growing up without faith. We need to teach them about God, without divine revelation. You have to accept faith. We can't change that. We don't want to change. We can't help them. We just have to show them. In that way they will be better."
