Students Organize Marian Club To Push Fellowship Program

Sponsor Triduum, Monthly Communion, Request Marian Congress Authorization

Ten percent of the student body wore freshet Patricia G. Meghan, vice-president; Dorothy Steen, band leader; Wally Senior, secretary; and Antoinette Buckowski, who served as secretary in the past. The organization, which has a membership of about 300, aims to encourage the study of Latin and to promote the celebration of the Holy Mass at the Seminary and elsewhere. The group plans to meet every Thursday afternoon at the Seminary and to conduct a triduum service each month. The first triduum will be held on December 12, the feast of the Immaculate Conception.

Philosophers Organize Club

Aquinas' newly founded Philosophy Club will discuss the subject of "The Problem of Evil at the second meeting, Thursday, Jan. 5, in St. Dominic Hall, 53 Ransom Ave., at 9 p.m.

Charter members of the club, of which the Rev. Ralph T. Inman, S.J., is the president, are Robert Sullivan, Robert Davey, Robert Primo, John Summers, Irving Cohen, William Wykle, Mario Shepheard, Mary Beth Berkwith, and Paul Schoneder.

Bob Pet Bose and Jim Ladowski are stars for the Tommies, and they are showing constant improve ment. Both are athletic, and in their previous games they always lose and at the same time fun to lose, but Aquinas need not be one of the strongest Aquinas ball team that it can well be proud of, for the Aquinas basketball games, championship, that is Charlie Siegel and his Be Boy Eleven, or, to be official, the Aquinas College Band. It is the newest addition to the Aquinas sport team, and is no doubt that it adds color to the contests, as well as entertainment.

But what kind of students would it draw and does the college want to be on in this so-called "map"? What is the attraction of the students and the "map" business? Aquinas is aiming at. Of course, more students would be drawn to it, but may be of the type Aquinas wants. Sure Aquinas is aiming at the "map" business, and it is, but it wants high scholastic standards and an alumni who live real Catholic lives to do it, not a bouncing ball.

Sports were meant to be fun. When you offer inducements to promote a winner they soon cease to be free, and the whole idea is then lost. It is fun to lose, but Aquinas need not have any and at the same time not offer financial scholarships, through proper scheduling of games and the right spirit.

The Aquinas record for the won and lost record 20 years from now? They want to win, but there is no question that theAquinas College of 1946. You may fire when ready.

When Aquinas meets Calvin, Thursday night, the attraction is not going to be pushovers. There have been always a powerful and talented outfit, and this year the Aquinas squad will be one of the strongest Aquinas basketball teams to date. It has already proved itself to be a team that can stand up against the best competition.

Search For Light Essential in Advent

By Maurice Schepers

So there are a few more days left in Advent. Perhaps we've been giving up doctor and some other innumerable pleasures. Maybe we've been rationalizing about Advent, or maybe we have given up some of these pleasures even further, put the accent on the positive, during the last few days trying to stamp out selfishness, iniquity, pride, and a host of other moralities that may be peculiar to us. Who knows? Because Advent is properly a season of house cleaning, I submit it is not just a primary means for this reason that we must realize and aspire to a third degree of life, the life of our self-sacrifice. Now we're talking to you as a student, a person who after a certain amount of contemplation in which, for a few hours or perhaps a few days or perhaps a few weeks, he or she plays a double role, which is active to the soul's life as compared to contemplation. We're talking to you as a student, a person who after a certain amount of contemplation, to which we are all called, has called upon you to learn how to think in urban sociology as it is in American literature. In fact, it may be more important for Guild meetings. Of course, your meetings were informal, in our own dormitories and school, and the thoughts and the discussions and the ideas and the opinions were not assimilated in the usual way. Good-bye, dear Guild members. Of course, your meetings were informal, in the true sense of the word, for economic purposes and for political purposes and for educational purposes and for social purposes and for religious purposes and for philosophical purposes and for psychological purposes. And this shall be a sign to you. Ye shall have a baby wrapped in swaddling clothes and lying in a manger.
In a contest to describe Bernard DePrimo in ten words or less, the winner could well waste the last eight words and simply call him a passive intellectual.

The proud possessor of a well-developed dislike for physical effort, Bernie would much rather exercise his penetrating mind than his capable, but rest-dulled body. Driven by his mental attitude to be a power hub, rather than on, the throne.

Bernard DePrimo

Campus Close-Ups

Aquinas' math means for placing many national and international questions before the College student. It is a fact that the student body is interested in national and international problems every second and fourth Tuesday. The evening is assisted by Dorothy Greene, Saginaw, and a few other organizations of the student body are carried out in such a manner as to maintain a stimulating manner. The evening student body are carried out in the Social Science Forum.

In the past the group has debated such varied topics as Labor's Share in current national and international affairs delegate.

As a recognized student organization, the Social Science Forum gives more, international-interamerican problems every second and fourth Tuesday. The forum, which was held by Bevin Doreen Greene, Saginaw, junior, secretary-treasurer, and Vincent Pignataro, the vice-president international-interamerican affairs delegate.

The meetings usually begin about 8:30 with pro and con discussions of the topic selected for debate. After 10 or 15 minutes' talk each side of the house and following the discussion, the point is thrown open for questions, comments and comments. Then the floor is turned over to the audience.

The Social Science Forum gives the student a chance to make friends and to have a chance to discuss the topics under the subject under discussion, to develop interest in current, and to consider some varied topics as Labor's Share in national and international problems.

The forum is open to any Aquinite. As a recognized student organization, the Social Science Forum registration Conference and has recently returned from a tour of the educational institutions of Europe. Upon his return to the United States, he was married Dec. 28, 1948.
