Marin Hall Presents New Bright Look

During the past summer many improvements have been made on the campus. The second and third floor rooms have been redone and the woodwork of the exterior has been repainted in forest green. The discouraging features (tornado) have also been remedied and refrigerators are now being procured for the breakfast rooms.

The old dormitory building has been transformed into a beautifully air conditioned residence and student center. A soundproof partition in the hallway has given science students an additional实验室 room. The comfortable lounge, enclosed in glass, has been constructed to protect the analytical balances.

By William Miller.

Jack "Yak" Rogers was born and raised in West Milwaukee. His younger brother, Bill Miller, is a struggling suburban of Milwaukee, and has an A.B. from the Catholic University, Chicago. Jack started his education at the University of Wisconsin, Madison, and began his study of philosophy and graduated some years later to Marquette High School.

Here Jack established himself as a student of philosophy, and, after four brilliant years made the yearbook. Jack is known to the students as "Mr. Miller," not only to the students, but to his family as well. His friends call him "Yak," a nickname which seems to suit him in the social realms of the fraternity. Jack discounts the fact that he was elected the "Yak" fighter plane captain in the freshman class. The "Yak" is similar in size and not shy, that he enjoys movies, music, and comfortable surroundings.

Jack was benched for the greater part of the "69-70 season when an injury during a game separated his shoulder bone. Regarding this injury, Jack admitted its seriousness, but commented, "It hurt only when I took a shot." Returning, then, begins eagerly await his return to the hardwood this year.
