Before coming to Aquinas Father McKenna attended St. Andrew and St. Thomas high schools and Catholic Central High school. As a Dominican scholar he spent six weeks as one of a limited number of students from abroad in a workshop sponsored by the Horace H. Rackham Graduate School of the University of Michigan, which he found highly profitable.

Sister M. Bride, O.P., associate professor of art. He praised the combination of colors in the background and the blending and arrangement of tones. Schweigardt stated, “The source of the selection of the ‘Clown’ may be the effusion of an original impulse as an expression for satisfaction of individual instincts and philosophic desires—an emotional play with wish-dream fantasy to perfect the imperfect world.”

Dear Alma Mater, we sing to you.
For all the years you inspired gaiety of laughter even amidst toasts . . . for all the friendships and honored once you have given us.
As we leave you, we are far richer than when you took us. But what you have given us cannot be prized nor can we ever hold justly pay you for it.
Plundering our loyalty, faithful and true
As you pledged yours those short years ago. Our time together has come to an end. We go on while you turn back to the others who wait. It will be difficult but you will have to tell us then you never failed us. If we are loyal at the end, you were loyal to the end.

There is our Patron, dear to us all. You stand above all others, lighting the way, not a stern master but a friendly guide. Our errors you know by heart; our triumphs you pray for and welcome. May you remain with us always, a patron and a guide.
Veitas enfolds us, rings through each hall. You have made us your children in the truth of faith; may we always remain so.

Students and Politics

By Jack Schrem

During the past year I have endeavored to show that student politics reflects city, state and national politics, and our political conduct in school is a reflection of our future political life. Often the picture of the future is rather disheartening. Disenfranchisement and participation in politics by college students should be well over average.

This figure drops to as low as 30%.

For all the years of youthful gaiety of laughter even amidst tears . . . for all the triumphs you pray for and welcome. May you remain with us always, a patron and a guide.

VEITAS ENFOLDS US, RINGS THROUGH EACH HALL.
