Aquinas College has long heralded as a center of cultural achievement in the Grand Rapids area. It is in the fullest sense of this tradition that Aquinas once more sets aside six days of cultural recognition... carousel of Cultural Activities... Provides a cross-section of exemplary music of past and contemporary France. Guest speaker at the dinner is... termed of folk ballads. Variety is the key word for Sunday's events. Fr. Robert Badra, of Marshall, Michigan, will deliver provocative messages in his presentation of original poetry and readings from... state-wide popularity among Catholic students, Fr. Badra will speak on "The New Dimension," followed by questions... the brothers' celibate life. He... complete trust in God; they live in the generosity of Christ and share all they receive. Brother Jacques was most explicit when he began speaking of the brothers' celibate life. He... a prayer for unity. Brother Jacques explained that an involvement in the prayer of Jesus Christ means that we must first make a face-to-face contact... and wishes to do something to correct it. In order to fulfill this desire, the brothers make a commitment... includes three means of promoting Christian unity among themselves: a concern for building it upon a positive foundation, a prayer for unity, and a commitment to... is a prayer for unity. Brother Jacques explained that an involvement in the prayer of Jesus Christ means that we must first make a face-to-face contact... among Christians...a prayer for unity.
Sights and Sounds
by Cheryl Nahr

There is a book on the library shelf which has you in it. It is a collection of small color photographs portraying the art of living and it shows you, from birth to death. I looked at the book first, and then into the faces of the students, and found them all there. It is like a mirror of all the efforts we have exerted, the talents we have discovered, and the life we try to live.

With quotes from the Sioux Indian, the French physician, and the American politicians, the photographs convey their sentiments with mankind as art. Not man as he should be or as others hope he would be, but as he really is.

Through the images of birth, childhood, adolescence, adulthood, and age, and through us as ourselves, we have lived, and are living, and will continue to live. And once we have lived this way and men after us will live in the same vein — always living.

The fascinating element of the photographs is the expression of thought inscribed in each frame. There is symbolism as such, no imagery or ambiguity, and no controversy — just you and me as we created. Each black and white photo brings out your ability to live and feel every second of life.

A Financial Remedy

One of the biggest expenses of the modern day family is no longer a college or house, but the rising cost of education for their children.

Many parents and students are becoming anxious about whether they will be able to meet these constantly increasing expenses of a college education.

To eliminate any separation of church-state conflict.

A Taste of Politics
by Cathy O'Brien

Spring is here, baseball is in print and another of the all-American pastimes is again in full swing—electioneering. This columnist had the opportunity to be present at the press conference and reception for the Mayor of Detroit, Jerome P. Cavanagh, who is making a bid for the Democratic senatorial nomination in the September primary. It occurred to me while awaiting his arrival, that elections, primaries, offices of public trust, and voting are the very essence of the American way of life. The people present were far from the general image of anyone mixed up in politics.

A young woman named Mrs. Theo Barrow was the hostess for the event. With sincere interest, she was involved in supporting her husband for the U.S. Senate. The J. T. Tersky family was out in force as Mr. Tersky patiently explaining to his four children the reason for the gathering. City officials were also in evidence in the Kresge room of the Kent County airport as the former mayor of Grand Rapids, Stanley J. Davis, now a representative in the Michigan House of Representatives.

The sincere interest of the college students present—representatives from Grand Valley State college, Grand Rapids Junior college, Calvin college, and Aquinas' Tim Konieczny—made it evident that this uniquely American process was definitely a part of their lives. In a little over two hours, I realized how important it is to get to the polls and preserve this life as an American. When September comes, primary day will have a new meaning as this reporter casts her vote as a full-fledged American citizen.

Although it was not an explicit requirement, it was most evident that all the students present knew the importance of voting. The day's drama was set when one of the delegates introduced Governor George Romney in which official aid was promised to all college volunteer programs in the area of transportation. One of Aquinas' delegates, Angela Lee, was rather surprised when, just before his address, Michigan's first citizen marched up to her, introduced himself, and demanded to know what he could do to help her volunteer organization. Needles to say, any amount of praise or speech on Angela's part was quickly cured by this open invitation.

In recapitulating the weekend, one of the representatives remarked on how difficult it is to explain accurately all of what went on. Much was learned, but most important, a sense of unity was gained so that the Aquinas or Central or Eastern or MSU groups no longer seem to stand alone.

Volunteer work, at home or in another country, is no longer "ours." People, important people, are doing it and liking it.

Mrs. Romney again seemed to have the right words for the situation when she remarked "you are just beginning to be in "being" on our campuses." But now that we have started it is impossible to stop—we're hooked on giving. . . .
