Aquinas College, meet your neighbor, the white mansion at 1869 Robinson St. This old friend has resided at its present address directly adjacent to Aquinas' neighbor of long last met its "new" neighbor.

Aquinas College has a neighbor. This is nothing new. Aquinas' neighbor has resided at its present address directly adjacent to the eastern border of the campus for the past 23 years and had been scheduled for Aquinas. But with the arrival of the largest freshmen class in its history this September, the Reformed Bible Institute has also observed a new resident in the executive position. Dr. Van Der Veen as soon as possible.

With the arrival of the largest freshmen class in its history this September, the Reformed Bible Institute has also observed a new resident in the executive position. Dr. Van Der Veen, a native of Grand Rapids, has been active on campus as chaplain for the past 25 years. During February, Mrs. Zelma Baxter, another Danforth lecturer (sociologist, specialist in intercultural and international relations) will visit Aquinas. Mrs. Baxter is designed to bring another dimension to campus life.

The time has come for a long-overdue introduction: Aquinas College meets your neighbor, the Reformed Bible Institute.

A "social call," via the printed word, will discover a spacious white mansion at 1869 Johnson Road, where 125 students are present. Aquinas College has at long last met its "new" neighbor.

The student body includes approximately 60 dorming students residing in four off-campus houses on Lake Drive.

Foreign students from Cuba, Japan, and the Canadian provinces as well as representatives for the American Indians, Harlem, N.Y., and New Mexico comprise the out-of-town resident student membership.

The three-year course offered by the Institute is designed for the student complete 96 hours of General Instruction and 31 hours of Theology. A student enrolled in the Institute may take courses in Christian Ministries Ministries, Religious Education, or Music.

Upon graduation, many of these men and women will enter into parish work to perform as lay wmen for Christ.

The group practices from 8:00-9:30 p.m. on Tuesdays and Thursdays in the fieldhouse. Any girls interested in participating are asked to contact Mrs. Van Der Veen as soon as possible.

An amendment to lower the minimum voting age has been introduced in the Congress of the United States over sixty times since 1942. These joint resolutions have, however, never been introduced and they have never been, for the most part, shielded from public view.

On November 8, Michigan citizens will finally be given the opportunity to share their opinions and judgments on the proposed bill.

- The archaic minimum voting age of 21, established in the United States more than 150 years ago, and derived from the English Law against which minimum age required for Knighthood, serves no positive function in a modern society and detracts from the viability of our democratic system.
- Young people between the ages of 18 and 21 have, in time of peril, been summoned to fight for America. They should participate in the political process to the same extent than previously.

The Peace Corps will visit the campus tomorrow with the Archivist of the United States, Mr. Mr. Robert C. McFarlin, for a lecture-demonstration and book signing. The event will be held in the International Relations Room, from 2 p.m. to 4 p.m. All are welcome to attend.
ONCE MORE UNTO THE BREACH

Way back in 1956 I started writing this column about campus life. Today, a full 13 years later, I am still writing this column, and I have no interest in undergraduate students as keen and lively as ever. This is called "arrested development!"

People who can write a subject as fascinating as the American campus? Where else are minds so sedated, bodies so rolled, psyches so unglued?

At the present time, the new school year has just begun, you've already encountered the following dis-satisfaction:

1. You hate your teachers.
2. You hate your room-mates.
3. You hate your courses.
4. You have no time to study.
