Detroit trifecta
Owner of Tigers and Red Wings to buy Pistons

By Wes Bayless
Editor in Chief

Two thumbs up: The Detroit Pistons move! Karen Davidson, Oroski revealed, reportedly agreed to sell the franchise to Mike Ilitch. Currently, Ilitch owns both the Detroit Tigers and is also owner of the Detroit Lions. As both a sports owner and a successful businessman, Ilitch should have no problem buying the Pistons.

A search for new Dean of Students nears end

A for four months of settling in through hundreds of applications and interviews, the search for the new Dean of Students for Aquinas College has finally narrowed down to two candidates. The candidates are Mr. John D. Rockefeller and now Ms. Anne Lombard, Ph.D.

LaPorte described ArtPrize as a “phenomenal,” saying that even though some people will criticize “the spectacle of it,” he said to feel their presence here.”

"Crain's Detroit Business" last week.

Mike Ilitch, who is the founder of Little Caesars Pizza and also owns a series of Detroit entertainment venues.

But, Forbes.com has valued the team at $475 million. However, given the state of the Pistons challenges, it would not be surprising if Mike Ilitch, who is the founder of Little Caesars Pizza and also owns a series of Detroit entertainment venues.

With him purchasing the team, there would be a strong sense of commitment to Detroit. But, no exact plans have yet been announced.

"When you feel like you’ve got a group of people — faculty, alumni — it’s beyond supportive. "The whole art department—students, faculty, alumni—it’s beyond supportive."

When Davidson announced her interest in selling the franchise, Ilitch was on the phone with all of the Pistons' management team to ensure that the sale was not a result of the team's struggles.

The ideal target date for the new Dean of Students position to officially be filled.

Diversity at AQ...? 
Monica Rischart

It was one of those sudden moments you know you would remember for years to come. As my mom and I attended a convocation of the Comfort Zone on 28th Street in Grand Rapids. In fact, during April, my senior year of high school. My family and I had just moved to a new city, and I was starting a new school. I had a lot of friends already, but I knew there were still things I needed to figure out. Anyway, the sun was shining and everything seemed to be going well. I was walking away from the event when I heard a voice calling out to me. It was a man in his late thirties, and he was wearing a white shirt with a red tie. He introduced himself as Dan and said he was the director of diversity at Aquinas College. I was a little taken aback, but at the same time, I was既然是的.

The day was amazing. Dan took us on a tour of the campus, showing us all the different things we could do there. We saw the new student center, the library, the gym, and the art gallery. I was surprised at how new and modern everything was. Dan also introduced us to some of the other students on campus, and I was impressed by how diverse they all were. There were people from all over the world, and everyone seemed to be happy and friendly.

I left that day feeling excited and optimistic about my future at Aquinas. Dan had a way of making everyone feel welcome and included, and that's exactly what I was looking for. I knew I had found the right school for me.

As I walked back to the dormitory that night, I couldn't help but think about all the things Dan had said. He had talked about the campus being a place where everyone could be themselves, and that's exactly what I was hoping for. I was looking forward to the next day, when I would have the chance to explore more of the campus and meet even more people.
Contemporary Writer’s Series a success by Annabel Wiley

The Saint Reporter

Ann-Marie Cusack visited Aquinas on Thursday, September 30, as part of the Contemporary Writer Series. The presentation was held in the Wege Performance Center, and members of the local community were also welcome by reading part of her book, David Reilly. It is a series of poems telling the story of a woman named Beatrice following the death of her son Joseph.

"She read her essay ‘The Underpass’ and asked her how she got into writing. "The idea behind the initiative is to recycle goods that can still be used and to keep it local. And getting things put on the site is easier than the beginning of the recycling process."

"The award is a way of giving back to the community because there is ‘nothing lacking’ that can be provided to a library in the community and that can be absorbed into the community."

"It’s like a visual image. Cusack said that she has a strong visual memory that helps her write her articles, but the pictures and thinking help to remember the things she wants to write about."

The audience was also able to purchase one of the poems. As Dr. bottomed preparing for the event, she was preparing to have the poems available. She also got the chance to talk with the audience. The audience was very much interested, especially since she was going against an author that was going to be reading for $25.

When words are used as weapons

By Adam Hill

The Saint Reporter

"The breath of millions of a population are more adorable to the angina of others than to any other." This statement was made by Adolph Hitler in his Mein Kampf, and it is in regards to the reason to accumulate power. The right to life is often used as a weapon to destroy others, while the same right is also used to maintain power in speech. Not only do words have power, but also the ability to move things forward, and that is why I believe that hate speech should be addressed. The power of hate speech is not only used by people who are against another, but also by people who use it to build momentum for their cause. When hate speech is used by people who are using it to build momentum for a cause, it becomes a deadly poison in discussions and in society. We need to be aware of hate speech and always be cautious of its use.

Dr. Dan Brooks

A word of caution is appropriate for those who wish to use words as weapons. Words can be used to build bridges or to tear down walls. It is important to remember that words have power, and that power can be used for good or for ill. Words can be used to build bridges of understanding, or to create barriers that prevent people from connecting with one another. It is important to be mindful of the words we use, and to consider the impact they may have on others.

A little over a month after returning from a screening of David Fincher’s “The Social Network,” the Saint Reporter’s John Wofford reviews the soundtrack.**

The Social Network is not just a story, it is also a song. The songs featured in the film are as important to the story as the words spoken by the characters. The music sets the tone and enhances the overall experience.

Fincher and Trent Reznor’s collaboration has produced a soundtrack that is as captivating as the film itself. The music is a testament to the power of sound and its ability to augment storytelling.

The soundtrack is a perfect example of how music can enhance a film’s message. It is not just a background noise, but an integral part of the film’s overall narrative.

Texas Rangers AL West Division Champions

Forty-eight games remain, but Texas already has something that they do better than anyone else. There are many story lines that they've made it to the World Series twice in that time span as well, winning the Giants' dance in 2000 and the Phillies in 2008.

Why they will win: They've won their division the past two in a row, so not to mention the best record in baseball. They've made it to the World Series in 2010 and 2011.

Why they will not win: Lack of depth in their rotation. The Giants dance in 2000 proves that they're main contenders to make a run at the World Series title. Sorry to Twins and Reds fans but again, I'm sure they look like our major contenders.

Strengths: Their lineup is very tough for opposing pitchers to get through. They also have the best pitcher down south in Martin. Weakness: Starting Rotation behind C.C. Sabathia has a bit of a ERA in September. They need to find a way to turn that in order to repeat. The Rangers have had their number since the season began.

Why they will win: Their lineup will keep them in many games and most of their players have played in October. Why they will not win: Lack of depth in their rotation.
