Staff Writer

The Aquinas College men's soccer team came one game shy of a championship and finished the season ranked No. 5 in the nation.

In the semi-finals Aquinas hosted Siena Heights University. Aquinas took control of the early game and did not let up in the 1-0 rout. Freshman midfielder Mitch Torres scored in the 27th minute to get the Saints on the board. Senior forward覃rick named to first team all-WHAC, while senior midfielder Reuben Omelas-Luna and junior goalkeeper Jesus Quinteros-Labre were named second team all-WHAC, in addition Pantoja was the WHAC Offensive player of the year. When asked what he will remember about his senior season and how much these memories made him come to play and still know how to make it last.

Aquinas graduates four seniors from this year’s accomplishments championship teams, all of which played essential roles to this year’s success and has contributed as much to the program. The Saints will look ahead and try to replace these impactful players and bring younger players in step-up next year to build-in the program’s success that they have established over any serious when it comes to living on your own, learning to live on your own, learning to live on your own, learning to live on your own.

Aquinian: New Perceptions to perform tonight, Nov. 27th at 7:30pm

New Perceptions, a group consisting of Aquinas College and local professional jazz performers, will perform tonight, October 27th at 7:30pm in the Performing Art Center. The event is free and open to all.

Public vs. Private education

Monica Bischino

News Editor

It was a chilly morning fast Tuesday, and instead of making my usual route from Regina to Hoge for some coffee with available mocha, latte, and granola, I decided to sneak through the traffic on the way to class through the student responses, I should try to bring to light the concerns followed by a white formation of "stereotypes" for the point of view.

The poster was quickly packed with opinions and arguments relating to the sensitivity of the topics regarding both the advantages and disadvantages of public and private schools, and it seemed that all the major stereotypical points were covered by at least one of these institutions.

For example, one person wrote, "private schools are far more superior to those public schools. You can never have more clubs and high scores on the ACT and SAT. Also, there are more out-of-school activities," which is an accurate statement. However, this was surely not the case for all private schools.

"Private schools have way too many rules and restrictions in place," (There was no indication as to what particular school the person was referring to, but the majority of responses seemed to suggest that people were focusing on high schools.

"At Aquinas, it seems to be a matter of how much the school supports its students. If you have a good attitude towards school, you get a lot more out of your experience," (Again, this was a general statement without any specific example).

"It is not always a tough process, but it can definitely be the only alteration being made to the Resident Life structure on campus, and it is not expected that these changes will affect residents in any significant way.

Despite this change in private occupation, Keller will still be involved in the psychology department of Aquinas, using the same building and for the benefit of Keller's decision, making the transition much easier to accomplish. Keller's role as Area Coordinator of the psychology department.

Local and National Political Updates

AQ Alums Win 75th!

Dan MacWell
The Saint Reporter

It has been over two weeks since the last election, but the political buzz has not yet subsided. From local to national levels, the political climate has been analyzed, the voters have spoken, and the political landscape has been forever changed in one way or another. The political buzz continues to reverberate as the political parties prepare for the future.

In Michigan, the most notable decision over the past few weeks has been the election of Governor Rick Snyder. The governor-elect will be inaugurated on January 1, 2011, and will serve a four-year term. Snyder is a former Republican state senator who was elected governor in 2010.

Snyder's victory in Michigan was significant because it marked a shift in the state's political landscape. For many years, Michigan has been a Democratic stronghold, but Snyder's win suggests that the state's political complexion is changing.

The election of Governor Snyder is just one of many significant political events that have occurred in Michigan over the past few weeks. Other notable events include the passage of the health care reform bill in Congress and the decision by President Barack Obama to sign it into law.

These events have important implications for Michigan's future. The health care reform bill will have a significant impact on the state's economy, as it is expected to create jobs and reduce health care costs. The election of Governor Snyder will also have a significant impact on the state's political landscape, as he is expected to work with the legislature to develop a new budget and address other important issues.

The Changing Colors of National Politics

Adam Hill

"If you want to make America great again," President Donald Trump famously declared during his campaign, "we have to make the United States great again, and we are going to do it. We will make the United States great again." Trump's campaign slogan captured the mood of many Americans, who were frustrated with the state of the country and ready for change.

In the months and years since Trump's election, the political climate in the United States has continued to evolve. The presidential election of 2020 brought new challenges and opportunities for the country, as the nation faced the ongoing COVID-19 pandemic and its economic impact.

The November election saw the election of Joe Biden as the 46th president of the United States. Biden won a narrow victory over President Donald Trump, who had been the first Republican president to win a second term since George H.W. Bush in 1992.

Biden's victory was seen as a defeat for the political ideology of the Trump administration, which had been characterized by policies such as tax cuts for the wealthy and deregulation. The election also marked a return to more traditional Democratic values, such as a commitment to social and economic justice.

The Biden administration faces a number of challenges, including the ongoing pandemic, economic recovery, and the need to address climate change. The new president has already taken steps to address these issues, such as signing an executive order to rejoin the Paris Agreement and implementing new measures to combat climate change.

On the national level, the election of Joe Biden as president and Kamala Harris as vice president marked a significant shift in the political landscape. The new administration will face a number of challenges, including the ongoing pandemic, economic recovery, and the need to address climate change.

The election also marked a return to more traditional Democratic values, such as a commitment to social and economic justice. The new president has already taken steps to address these issues, such as signing an executive order to rejoin the Paris Agreement and implementing new measures to combat climate change.

**Stieg Larsson Plays With Readers, 'Fire'**

By George Van Den Driessche

"The Girl Who Played With Fire" is Larsson's third novel and, according to Larsson, "The Girl Who Played With Fire" is the most compelling of his novels to date. Larsson's most recent thriller, "The Girl Who Played With Fire," starts where his previous two thrillers left off.

The plot of "The Girl Who Played With Fire" revolves around Lisbeth Salander, a phone operator who becomes involved with a criminal gang. Salander is a real estate agent and the main character of the novel.

"The Girl Who Played With Fire" takes place in Stockholm, Sweden, and the story focuses on the relationship between Lisbeth and her mentor, the retired police officer, Mikael Blomkvist.

"The Girl Who Played With Fire" is a gripping thriller that will keep readers on the edge of their seats. The novel is fast-paced and action-packed, with many twists and turns. "The Girl Who Played With Fire" is a must-read for fans of crime thrillers.

"The Girl Who Played With Fire" is a highly recommended read for anyone who enjoys a good mystery. The novel is well-written and has a great plot. The characters are well developed and the setting is believable. "The Girl Who Played With Fire" is a great read and a fitting end to Larsson's successful "Millenium" series.

**Kid Cudi ‘Rages’ Against Mediocrity**

By George Van Den Driessche

Kid Cudi, the Ohio-born rapper, recently released his third album, "Man on the Moon: The End of Day," which has received mixed reviews from critics and fans alike.

"Man on the Moon: The End of Day" is Cudi's latest album and fourth studio release. The album features 15 tracks and is a departure from his previous work, which has been described as genre-defying and innovative.

"Man on the Moon: The End of Day" is a concept album that follows Cudi's character, the Saint, on his journey to find and save the girl he loves, the Virgin. The album tells the story of Cudi's struggle to find his true identity and his journey through life.

The album has received mixed reviews, with some critics praising Cudi's ability to create a cohesive concept album and others criticising the lack of originality and the album's production quality.

"Man on the Moon: The End of Day" has been praised for its strong lyrical content and Cudi's ability to deliver a powerful message through his music. The album has been accused of being too formulaic and not being as innovative as Cudi's previous work.

"Man on the Moon: The End of Day" is a controversial album that has divided fans and critics alike. Some fans have praised the album for its rawness and honesty, while others have criticised the lack of originality and the album's production quality.

"Man on the Moon: The End of Day" is a highly recommended album for fans of Cudi's previous work and those who are interested in exploring new musical territories. The album is a testament to Cudi's ability to create a Conceptual masterpiece that is both innovative and thought-provoking.

Aquinas XC teams bound for Nationals after strong WHAC performances

By Sophia Scott

The Saint Reporter

On Saturday, November 6, the women’s and men’s Cross Country teams competed in the WHAC Conference meet. The women placed third while the men placed fifth. "It was a great race for both the girls and the boys," said head coach Bob Retterer.

The women’s team was led by the efforts of senior Jacqueline Katt. "I was very impressed with her," Retterer said. "She gave it her all and I’m so proud of her." Senior Maggie Dudley placed 43rd and junior Becca Peck placed 54th.

"It was a very close race, but we did very well," Retterer added. "I’m happy with the team overall, considering we placed third, which is our lowest placement ever." Retterer also noted that it was a very cold day for the race and that some of the runners were affected by the weather.

In the men’s race, Aquinas finished second overall. "We ran very strong today," Retterer said. "We ran a really good race." The first place team in the men’s race was Marygrove College. "We got a lot of help at Nationals," Retterer said. "We were a little weak, but I was really proud of them." The last place team in the men’s race was Wayne State University. "We didn’t do as well as we wanted," Retterer said. "But we ran a really good race." The Aquinas men were led by senior Michelle Leyden, who placed 48th and senior Jessica Grimes, who placed 50th.

"It was a very close race, but we did very well," Retterer said. "I’m happy with the team overall, considering we placed fifth, which is our highest placement ever." Retterer also noted that it was a very cold day for the race and that some of the runners were affected by the weather.

Strength in numbers: Led by Kolin Stickney (41) and Eddie Seymor (39), members of the men’s Cross Country team work together at the WHAC Championships on Parkside, Nov. 6. Despite not being able to overcome a strong Siena Heights squad, AQ’s steady performance all season has earned them a place at the National meet this upcoming weekend.

The women’s team ran a very good race. "I’m proud of everyone," Retterer said. "They ran a really good race." The men’s team was led by the efforts of senior Daniel Foley. "I was very impressed with his," Retterer said. "He gave it his all and I’m so proud of him." Senior Ryan Sabo placed 45th and junior Daniel Knoll placed 50th.

The Aquinas women placed third and the Aquinas men placed fifth in the WHAC Conference meet. The women and men will proceed to the National meet this upcoming weekend. "It was a great race," Retterer said. "We ran a really good race." Retterer also noted that it was a very cold day for the race and that some of the runners were affected by the weather.
