Obama announces troop withdrawal from Iraq
Aquinas family reunited
By Ian MacNeill
The Saint Reporter

On Friday, October 21, only 24 hours after Libyan leader Muammar Gaddafi, President Barack Obama announced that U.S. troops will leave Iraq by the end of the year.

After nearly nine years of U.S. occupation, hundreds of billions in costs and sacrifice, Iraq is ready to govern itself, said, "Thanks to [U.S. military] service members, our troops have already achieved our goal, and the American troops soon liberated Babylon.

Strobel also served all the time. "I was so nervous my hands were shaking," he said, "I think I was the first to assist in this wonderful day in our twentieth.

"We're glad that he's back," Strobel said. "He came so highly recommended. We're so glad to have you. We greet you in the opening prayer."

Senior Abigail Koprowicz agreed, "I feel that we are in a very special moment in our lives. The estate is projected to be entered in a very inspiring way.

The estate was built during the Plymouth and Robinson, St. Thomas the Apostle Parish, Chairman of the Staff Assembly Tom Turner, outlined the 125 year history of Aquinas on the day of his installation.

"I can see him being that way in the future," she said, "I'm very happy for the college."

Strobel who worked with the Presidential Search Committee, reminisced Obama's many accomplishments in his welcome speech. "This man is a giant in higher education," said Strobel during his speech.

The new president in town

Newly inaugurated Aquinas College President Juan Olivarez shares some time with The Saint in our exclusive one-on-one interview.

By Matt Kuczynski
Editor-in-Chief

Juan Olivarez, Ph.D.

Olivarez proudly declared the successes of the incoming administration. "We will raise the bar. Expect more," he said. Olivarez said he will support the idea of creating a top "Liberated" communications program within the communication department. "We will become the top communications program in the country," said Olivarez. Olivarez was in attendance at the ceremony on Tuesday, Oct. 18, at the Sturrus Center in downtown Grand Rapids.

Olivarez's new position. "Juan has the experience and the need," said Dr. Ian Borton, vice president of Communication Dr. Ian Borton believes that Olivarez understands the symbols of the presidential office, and he is a great fit for the job. Olivarez will be working with the top notables in the college community, and he has many impressive accomplishments to his name.

President. "We welcome him, standing beside those in need," said Nichole W. New, chair of the Aquinas College Board of Trustees. The inauguration ceremony gathered at Sturrus.

Olivarez is a dedicated and hardworking employee with a proven track record. "We welcome him, standing beside those in need," said Nichole W. New, chair of the Aquinas College Board of Trustees.

Olivarez has been involved in many community and national events, and he has been recognized for his dedication to public service.

Charism of service to be celebrated in the college’s year-long honoring of its 125th Anniversary

By Morgan Dzence

The Saint Reportet

In the movie Pay It Forward (1998), Treason, played by Kevin Spacey, tells the audience, "You owe it to the world to change it!" The impact this message has had on Aquinas College, however, is more accurately described by the College’s 125th Anniversary website, which reads: "The 125 Acts of Aquinas website is partially created by the Director of Alumni Relations, Robyn Young, and coordinator of Service Learning, Erin Bridge.

"This is a call to Action - to get involved to serve in the community," said Bridge. "The 125 Acts of Aquinas website was on Nov. 1, 2011. A postcard that will be distributed to students, faculty, staff, alumni, and others involved in the college will explain the concept of the project.

The four key aspects are click, share, serve, and repeat. After getting the postcard, recipients are asked to "click" by visiting the 125 Acts of Aquinas website (www.aquinas.edu/125) for information and ideas on how to be of service in their community.

The "service" factor is the basis of the project. Recipients are then asked to "share" the project with 25 people, individually or as a group of people. "My hope for this project is that it will not act as a catalyst for people to think about how we serve on a daily basis in our community and beyond. We want to continue conversations," said Bridge.

The "share" part of the project is an interactive web-based project, where members of the project are requested to log in to the 125 Acts of Aquinas website and tell one person what they did and why they did it. The website is linked with Google Maps, and will locate where individuals are from, making it a tool to understand where they did it. The testimonies can be shared via the website or on Aquinas’ social media pages.

The "serve" part of the project is to preserve and present the history of Aquinas for the past 15 years. The "serve" part of the project is the historical biography of Aquinas unveiling was on Nov. 1, 2011. "It was heartbreaking and(entertainment). It was heartbreaking and

**English professor Gary Eberle publishes book about college’s history**

By Jarret Ardell

As a project, this book began back in the fall of 2010, when English professor Gary Eberle was looking at the Aquinas Historical Committee, a group devoted to preserving and presenting the history of Aquinas for the past 15 years.

"As a project, this book began back in the fall of 2010, when English professor Gary Eberle was looking at the Aquinas Historical Committee, a group devoted to preserving and presenting the history of Aquinas for the past 15 years," he said.

"In the words of the project director, the Aquinas Historical Committee, a group devoted to preserving and presenting the history of Aquinas for the past 15 years, we have the opportunity to bring Luis Rodriguez, who calls himself a gang activist, to the campus. He also wanted everyone to be proud of their history and all the work they have done over the years. It is a great opportunity to learn about the history of the college, starting with its origin as the Novitiate Normal School and all the way through the American Gothic, to the building boom of the late 20th century. The 125 Acts of Aquinas website was on Nov. 1, 2011. A postcard that will be distributed to students, faculty, staff, alumni, and others involved in the college will explain the concept of the project.

**Reflections on the Contemporary Writers Series: Luis Rodriguez**

By Shelby Ulery

On October 27, Aquinas College had the pleasure of welcoming author Gary Rodriguez, award winning poet, author, and journalist to campus. Rodriguez, who calls himself a gang activist, for a presentation and discussion of his work. The event was held in the classroom.

His reading talked specifically of his experiences growing up in a gang, the troubles he went through daily, and how he eventually skipped school. He also wanted everyone to be proud of their history and all the work they have done over the years. It is a great opportunity to learn about the history of the college, starting with its origin as the Novitiate Normal School and all the way through the American Gothic, to the building boom of the late 20th century. The 125 Acts of Aquinas website was on Nov. 1, 2011. **Saudi ambassador to United States survives assassination attempt**

By Kayla Buiell

On October 11, it was revealed that an attack on Saudi ambassador to the United States, Mohamed al-Jasser, took place at a Washington, D.C., restaurant. The attack was conducted by a 51-year-old Saudi man who shot himself after being asked by police if he was Arab barbarian. The attack was carried out by the Saudi embassy to the United States, and is being investigated by the FBI.

"The reason for the attack is unknown," said the Saudi ambassador to the United States, who said that he was not threatened by any Saudi man, and that he was not shot by a Danish man as he had been reported.

FROM THE CROWD

APPLAUSE TO...

All those involved in making the inauguration of President Obama, for bringing our troops home;
Frau Gross, for taking The Saint's words to heart about antagonism; and everyone who helped.
Aqinas College Soccer, for going a combined 26-2-2 this season;
Anyone who checks The Saint's new Facebook page.

HECKLES TO...

Jimmy Johns, for driving through campus freaky fast;
Joe Buck, for using the term "Momentum swing" every five seconds during the World Series;
The kids who kept knocking on our door and stealing all our candy;
Kim Kardasian, for proving that diamonds are definitely not forever;
Fall break. Why did you stop?

>> from our view

Brothers will throwigate again, and stonkies among brothers. Children will turn against their parents, and parents against children. The government will stop working. Leaders will squabble, and guns will rise as they will be revealed and tolerated, for the world to see.
No, this isn't the rapier that was supposed to happen a few weeks ago.
We're talking about the next 30 months leading up to next November. It seems like in recent years, we've seen division done party by party, and our country needs to move past that local level conflict.
With all of the new terminology - the "so-called conservatives" and the "so-called liberals" - it's getting so hard to even have an open discussion.
Information that is presented may be so absolute that it is hard for anyone who doesn't agree with us and pick an absolute right with our votes.
Keep in mind that people change their minds. Adopting different ideas instead of forcing and people to commit to a certain way of thinking is the greatest American value: Compromise.
Our goal is to continue to provide an open forum for the ideas, views and thoughts of everyone.
Let's promise to our readers that we will work diligently for the next 12 months to provide an open forum for the ideas, views and thoughts of everyone.

The Saint has worked diligently for the past 30 years to produce an informative, distributed by students at Aquinas College and in the surrounding community. Our goal is to continue to provide an open forum for the ideas, views and thoughts of everyone.

Letters to the editor based on content, punctuation, length and libel issues. Please be assured that the library staff is working on developing a better way to enforce our library's noise policies. We've tried looking for quiet study areas, to keep your voices down, do not disturb. While we've tried to find a way to control the noise levels in the library, we've tried to make sure that the 2nd and 3rd floors of the library are quiet study areas, while on the 1st floor conversations are allowed. We've also tried to review the idea that cell phone conversations in the library are rude.

To the Saint.

We read with interest and note a bit of encouragement Matthew Rumpusky's "Our Quirky "Quirky in the Library" Not sure in the October 12, 2011 issue of The Saint.
We were happy to know that "the reference desk where students go to get things done" but not so thrilled to find out that rules regarding on-cell phones in the library are being consistently broken.
We've tried to monitor quiet study areas, to keep your voices down, don't disturb. Please be assured that the library staff takes student needs and complaints seriously and has many discussions about how to reduce the noise levels in the library. We've tried to make clear that the 2nd and 3rd floors of the library are quiet study areas, while on the 1st floor conversations are allowed. We've also tried to review the idea that cell phone conversations in the library are rude.
We monitor quiet study and phone use policy complaints as best we can with the staff we have. And we're not quite sure if it's possible to be "completely" quiet in a library. Of course, some noise levels fluctuate due to environmental issues, as well as those ready to graduate or out in the work force. American Horror Story is a scream

By Katherine Matta

The senior reporter remarks that the rich kids are immortal and the poor work for them. Students who have tried to get into this world have been instilled with sheer terror in their minds today. However, as this terror spreads, the student community knows what happens at the end of a horror film.

AHS takes a central symbol from the horror genre, the haunted house and turns that stereom type on its head. The series is a gothic Victorian-style house in Los Angeles with a history of hauntings. The series is the story of the Harmon family, which has lived in the house since it was built. The house is full of secrets and many people have died there, but the house is always. The Harmon family, including husband and wife Ben and Vivien, have purchased the house after the previous occupants died.

The show, from the minds of Ryan Murphy and Brad Falchuk, is something else. It is something for all ages and all tastes. It is something that will keep you on the edge of your seat and guessing what will happen next. It is something that will keep you coming back for more.

The House: Behind the Scenes of ABC's American Horror Story

American Horror Story is a shock to the system. It is a show that is not for the faint of heart. It is a show that is not for those who are easily scared. It is a show that is not for those who are not ready to be scared.

The show is as much about exploring many deaths, starting with (spoiler of the house. In the 20s, he was burned alive by his father. He performed abortions in the 60s and 70s. He was a doctor and a scientist. He was a man of many secrets.

In the show, though, he is revealed to be a man of many secrets. He has a daughter, Moira (played dually by Amanda Seyfried and where I got to understand exactly where the Divide came from. Ben and Vivien Harmon have a daughter, Moira. She is the daughter of a powerful and evil doctor. She is the daughter of a powerful and evil doctor.

The character who's the most intriguing in the show is Wednesday. Wednesday is the daughter of a powerful and evil doctor. She is the daughter of a powerful and evil doctor.

The Halloween episode from last year featured plenty of ghosts, deception, and Rubber Man appearances. Wednesday revealed what happened again and has it in for Moira, who is somehow tied to the murderous spirit of the house. The Halloween episode is one of the best episodes of the show. It is one of the best episodes of the show.

The show is about exploring many deaths, starting with (spoiler of the house. In the 20s, he was burned alive by his father. He performed abortions in the 60s and 7 In the show, though, he is revealed to be a man of many secrets. He has a daughter, Moira (played dually by Amanda Seyfried Recent Micheal J. Fox movies, such as "Back to the Future," have been successful, but not as much as the show is doing. It is doing well, but not as much as the show is doing.

DID YOU JOIN THE HORDE?

by Stephanie Glisk

Offered as a one-act play and directed by Soh Saion, "Daughter of Smoke and Bone" is a modern retelling of a Chinese fairy tale. The play was performed in the Berkshire Community College's Ollie's Seasoned Voices: "Daughter of Smoke and Bone" show on November 2.

"Daughter of Smoke and Bone" is a story of a young woman named Karou who discovers that there are more worlds than the one she is accustomed to. In her world, she is a student who lives a normal life, but in another world, she is a sky goddess who travels between worlds to collect pieces of a world-changing artifact. The play explores themes of identity, fate, and the power of imagination.

Karou, in one of her worlds, runs into Akiva, a beautiful but dangerous angel. He is drawn to her, intriguedly drawn to her at first. She has a will of her own, and he knows it, but he is determined to have her on their first meeting. Even after their first meeting, Karou still can't believe who she could "remember" from her encounters with Akiva before.

Akiva attacks Karou because she had been - indeed, is - the sky goddess, but the angel finds out a lot about her. He is infatuated with her beauty about Karou after she escaped. After a series of fights caused by a difference of opinion in the angel'sIGHT stability, Karou has the angel's confidence in her strength and she is khỏi about Karva, and the angel is talked to her, and the monstrosity she shoves her glasses at the Angel.Lyon keeps on thinking about the angel's story, and only Karou can make each other's efforts, and there are benefits and drawbacks to the main character. "It's the best story that Karou has written," he thought that Kyohei Yoshida, who co-produced the show, "is a young woman trying to find a book that is a story in and of itself. It is surreal, and it is surreal, and I don't think I could go in any direction to any direction."

"The ending is, unfortunately, a cliff-hanger, but with caution"! The play was performed in the Berkshire Community College's Ollie's Seasoned Voices: "Daughter of Smoke and Bone" show on November 2.

Dan Wheldon: a great driver, a professional person

Dan Wheldon died on October 16, 2011, at the Indiana Motor Speedway. He was known for his skills on the track and his passion for racing.

By Brionna Scott

The Appendix College’s men’s soccer team is facing an away fixture this week. Since the last away match, the men’s team has won two matches in a row, with a 3-2 league record.

The team’s next fixture is against the Saint Louis University on Oct. 22, which will be a crucial match for the men’s team. The team’s assistant coaches have been helping the team prepare for this match.

Cardinals defeat Rangers in historic World Series

By Charlie Ruggles

The Saint Louis Cardinals defeated the Texas Rangers in the World Series, winning 4-3 in seven games. The Cardinals were led by their star pitcher, Adam Wainwright, who pitched a no-hitter in Game 7.

In the final game, Wainwright struck out 13 batters and allowed two runs in 7.2 innings. The Cardinals scored two runs in the first inning and then held on for the victory.

With power and precision: Senior middle blocker Chelsea Phillips spikes the ball in the Appendix vs. Goshen College women’s volleyball match. She helped lead the team to a 25-11, 25-14, 25-18 victory.

By Alyssa Frese

The Appendix women’s volleyball team defeated the Goshen College team in three straight sets. The game was a thrilling match, with the Cardinals winning in straight sets.

The women’s team has been working hard to prepare for the upcoming conference tournament. The team is currently ranked fifth in the conference.

Men's soccer prepare for WHAC tournament

By Scott English

The Appendix College men's soccer team is preparing for the WHAC tournament. The team has been working hard to improve their performance and is confident in their ability to compete.

The team has won three of their last four matches and is looking to continue their winning streak in the tournament.

The team's next match is against the University of Northwestern Ohio on Oct. 19. The game is scheduled to start at 4 p.m. at the Appendix College soccer field.
Senior Dustin Heiler pushes himself to the limit and beyond

When it comes to competition in the classroom and on the field, Dustin Heiler has excelled in both. He was named to the All-GLIAC Academic team for the Wolverine-Hoosier Athletic Conference Academic team. He has worked his way up to being a leader on the team. He con- sequently, he has a lot of options. He visits Aquinas to help their college team reach its full potential. His passion for football has driven him to work hard and compete to the best of his ability.

Heiler's running career started in the NBA. He played for the Minnesota Timberwolves and the Los Angeles Lakers. His father and brother have been his biggest inspirations. He is grateful for their support and guidance. He believes hard work and dedication are key to achieving success in any field, especially in sports.

During his college football career, Heiler was named to the All-GLIAC Academic team. He has been a captain for the past two seasons and has been a key player in leading the team to success. He is scheduled to graduate in December and is currently enrolled in the Sports Administration program at Aquinas College.
