Divergent stays true to Roth’s dystopian classic by Chelesi Melkey
The Saint
For those who aren’t familiar with the book series, Divergent is set in futuristic Chicago and there is an alternative government that is formed out of what their name suggests. For those who are, it is an aptitude test that is given to determine which of the five factions they are to belong to. The factions are to protect each other from the outside world and to protect the city of Chicago. Veronica Roth’s Best Seller finally saw the silverscreen this past weekend, an aptitude test is given to determine which of the five factions they are to belong to. The factions are to protect each other from the outside world and to protect the city of Chicago. Veronica Roth’s Best Seller finally saw the silverscreen this past weekend, nothing in the recent release.

Divergent: Tris Prior in the proverbial family and ambitions. Her fear, stubbornness, strength and to put it frank, the experience for everyone who went to the theater with me would be impossible to watch. That would just be a step towards equality. Then, the ruling was stayed. This means that same-sex couples must wait to at least Wednesday, March 26, before moving any further and for a decision regarding the appeal. "Even though the ban was overturned, I feel like it won’t stick,” said junior Troy Dildine, Aquinas’ Straight Alliance President. “This is a good step, but there is more work to do. It was just the first court ruling, there is a chance for appeal. Those who don’t support it will make their voices heard and will take time. Despite this, the news is still a movement towards a changing future. It’s a good step towards acceptance, adds Aquinas’ Gay Straight Alliance secretary Addison Buse.

Divergent: Veronica Woodley portrays Roth’s strong female lead.

By Myara Menzey News Editor
A monumental decision was recently made for the future of same-sex marriage in the state of Michigan. On Friday, March 21, 2014 citizens fought over the historic decision, as U.S. District Judge Bernard Friedman overturned the Michigan ban on same-sex marriage that prevented couples from legally marrying in the state. This means that same-sex couples must wait to at least Wednesday, March 26, before moving any further and for a decision regarding the appeal. "Even though the ban was overturned, I feel like it won’t stick,” said junior Troy Dildine, Aquinas’ Straight Alliance President. “This is a good step, but there is more work to do. It was just the first court ruling, there is a chance for appeal. Those who don’t support it will make their voices heard and will take time. Despite this, the news is still a movement towards a changing future. It’s a good step towards acceptance, adds Aquinas’ Gay Straight Alliance secretary Addison Buse.

Divergent: Veronica Woodley portrays Roth’s strong female lead.

For better or for worse, April Diller (left) and Jayce Brown (right), with their children seek reform that allows them to get married and legally adopt each other’s children, were married in 2012.

Southern states are still mired in the past and still resist discriminatory views. It has been seen across the majority of the south has discriminated against people who are not white. Now some states are trying to pass laws that would just be impossible to discriminate against people who were believed to be gay or gay. “These laws, by making this issue front and center, will encourage more efforts to pass a federal anti-discrimination law,” said UCLA Law Professor Adam Winkler to The Washington Post.

Many states, gay marriage has been legalized but those states that have not have been showing their true beliefs on matters in regards to the therapy school. This is an area that has been evolving, the field of gay couples, or lesbians, while the Arizona law is broader. “Arizona already has a state Religious Freedom Restoration Act that protects a person’s free exercise of religion, similar to legislation in about 15 or so other states. The new law is simply strengthening the earlier one,” said Charles Haynes, a senior scholar at the Freedom Forum First Amendment Center.

Gay rights and religious views are two subjects that have been controversial issues all over the world and for quite a long time and continues to become a problem in this nation. In light of these bills, the LGBT groups across the nation have joined forces to fight the discriminatory bills.

Spring Breakin’

Maya Money.News editor

This is the time everyone gets excited for spring break! Spring break usually starts in the spring semester. This year, spring break starts on March 26 for the first time in 15 years. Some students might be excited for spring break because they can finally get away from their studies and take a break. However, spring break is not just about relaxing and having fun. It can also be a time of stress and anxiety, especially for those who are juggling multiple responsibilities.

Michigan: Consumer’s Energy employs more than $275,000

Consumer’s Energy, Michigan’s leading electric and natural gas company, raised its forecast for full-year earnings to more than $275,000 this past week. The increase is due to higher-than-expected revenues, which the company attributes to increased energy demand in the colder weather. The company expects to continue to see strong growth in the coming months, driven by increased customer demand and favorable market conditions.

National: SK5W mounts the loss of three attendees

A drunk driver plowed his car through a crowd of people at the popular Austin, Texas SXSW music festival on March 12. There were six serious injuries and three fatalities. The driver of the car, a 27-year-old man from Michigan, is currently in custody. The event was cancelled for the rest of the night.

World: Malaysia airline hosts a press conference regarding flight

Malaysian Prime Minister Najib Razak announced that the missing Malaysia Airlines flight MH370 has been found. He said that the plane, carrying 227 passengers and 16 crew members, was located in the southern Indian Ocean. The search for the plane has been ongoing since it went off track and never found "test 2012" best friend, and "test 2013" best friend. No wreckage or sign of life was found.

A look into the human trafficking epidemic

By Emily Elias

The Saint Reporter

Tragedy is often found in the most unexpected places. For many, human trafficking is one such place. These are stories of ordinary people who have been taken advantage of and sold into the sex trade or forced labor.

A common problem found on college campuses is the issue of low self-esteem. This can be attributed to a lack of quality education, media manipulation, and the desire to fit in. Low self-esteem can lead to negative behaviors such as depression, anxiety, and suicide.

To get at this question, I'm conducting a behavioral study. Members of the Career and Counseling center will be in the Wege Cafe Thursday, March 27, to help create awareness of a serious and common problem: low self-esteem.

"We are attempting to help students combat low self-esteem and poor body image through media literacy," said Counselor Jordan Kinder.

A new way to save time and increase productivity

By Chuck Hyde

‘Staff Writer’

The Internet can be a scary place. There are many things to be found on there that we’d rather not be on, but they always seem to come our way when we’re just trying to mind my own business.

The thing about the Internet is that it’s impossible to control a supposedly free space that keeps trying to get a foothold in recent years.

Two years ago I wrote an article on SOPA, the Stop Online Piracy Act. That ended up being a massive grass-roots movement to stop the Internet. Then PIPA sprung up and the Stop Online Piracy Act. It was a huge campaign that resulted in a lot of discussion.

My point here is that the Internet is not a free place. It’s more like a prison, and some people are willing to keep it that way.

Unlike most coffee places, Kava House goes out of their way to keep all their sleeves visible. This is more enjoyable than a cup of coffee or a similar concoction of sugar and cream. Even more enjoyable than a cup of coffee is a Kava House drink.

If you’re looking for something different, try the chocolate milk drink. It’s a bit rich, but it’s not too bad if you like chocolate.

One of the biggest advantages of the Internet is that it allows you to do things that make you more social. You can chat with peers, and drinking coffee makes it even more comfortable.

By Katharine Booth

It’s that time of year — after months of lunch bags and black tie, the only thing left is the last day of school. After months of white snow and black ice, the land is finally turning green. Even here in Western Michigan. It’s the time of year when the world is beautiful.

It’s the time of year when you can finally relax, take a break, if it wasn’t too dark to see when you had to wake up for the next day’s morning. Or if you weren’t already too sleepy again by sunrise.

Our pitch-black night last week, after turning off the alarm, we — the People— refused to get out of bed. Instead, we spent that hour contemplating the tyranny of daylight-saving-time.

Our first wish was that we should move our clocks forward — not to the dead of night, but to our own schedule, to a sunrise, to a leisurely Sunday morning.

But, as you most likely know, we move to the farthest fact we can, in part like humans do, to minimize the amount of hours of daylight-saving time would allow to increase that.

So we would like to adjust our clocks by an hour back every fall, forward every spring—for half a day each time. Now, this bill is just over 180 days, and at an hour it is over 300 words. It is a gentleman’s yet to be exacted on our biological clocks.

To be honest, we were too busy to see how the clock ended up being less less, would even count on our biological clocks.

Our goal is to continue to provide an open forum for the ideas, views and opinions of our author(s), and do not necessarily represent the views of The Saint Reporter.

By Abigale Racine

“Save my breath,” I said. “It’s my last chance!”

Abigale Racine is a first-year student.

Television: ABC Bachelor in Paradise spin-off confirmed for this summer.

Because one new romance just isn’t enough, ABC is preparing its latest summer spin-off of existing shows. For The Bachelor, it’s Bachelor in Paradise, the spin-off that grows on you. Expect to see the Bachelor in Paradise spin-off focusing on past contestants and sending them to a tropical location.

Music: Coldplay’s Ghost Stories to release on May 19.

The popular rock band will release its sixth studio album, Ghost Stories, on May 19. The album is the follow-up to their highly anticipated album, Mylo Xyloto. Coldplay’s new release is said to prove that the band still believes in magic, despite their immense success.

In the Spotlight

Seth Myers

Definitely not the adorkable 30-year-old, Seth has matured and gained a footing for his career. Not only is he known for his headlining shows but he’s also a young, quirky, and popular personality on CNBC. This past year, Seth Myers proved to be the man who can laugh last.

Seth Myers has been compared to an adorkable young man, and that’s exactly how he acts. His catchphrases include “Ew!” with Will Ferrell and “I don’t care, I ty!” with James McAvoy. Seth’s humor is of a sort that is refreshing to watch, and it’s hard to not laugh with him. Seth has proven to be the perfect host for many events and shows, including the 2014 Academy Awards.

Seth Myers has been a successful host for many events, and his unique charisma and humor have made him a hit with audiences. He has hosted from a variety of stages, from the Late Night with Seth Meyers to SNL. His unique approach to humor and his ability to connect with his audience have made him a beloved figure in the entertainment industry.

Seth Myers has been nominated for several awards, including the Emmy Award for Outstanding Talk Show Host. His success as a host has been recognized by the industry, and his unique brand of humor has made him a favorite among viewers.

Seth Myers has been praised for his ability to connect with his audience, his unique brand of humor, and his ability to keep viewers laughing. He has been a successful host for many events, and his success has been recognized by the industry. March is madness

Alyssa Frese | Sports Editor

March Madness is easily one of my favorite times of the sporting year. It's a time for new beginnings, Netflix and Chicken Pies, betting...What's not to love? Growing up, March Madness was a time for going to work for my dad and all his buddies would be watching the games every afternoon. I would down those four pops for snakeskin and stay close with the help of my dad. Usually I chose to watch CBS during the day and ESPN at night with the help of my dad. I usually chose CBS because my dad liked to see how the outside teams were doing, which was something I did not like. Usually I would be entertained by the sleep and snoring of my dad and would hear how a sixteen seed would be the winner?

One never knows what's going to happen. I love how a sixteen seed form is what makes March Madness so much fun. I have never seen a sixteen seed win, but I love hearing stories of how some teams have won. I remember hearing how a sixteen seed won the tournament, and I was so shocked and aware that this was just the beginning of all the amazing upsets that have occurred in this year's tournament.

It's not about his friendship with eight-year old Alyssa Frese | Sports Editor

The Aquinas College men's tennis team is off to an 8-7 record this season. With an overall record of 14-1, the Saints are currently ranked fourth in the nation. "In most years, we have no signs of souring down. Once Spring Break ends, we will be back on the court and back to work on our games," said assistant coach Mark Riedman. "For the first three games, the weather was negative and we had a very cold, windy day. The weather was still very cold and it helped from the low temperatures. Women’s lacrosse

The Saints hold their ground as the season progresses

By Alyssa Frese

Sports Editor

The Aquinas women’s lacrosse team is 3-0 so far this season. The Saints played their first two games of the season in Chicago, Illinois against Robert Morris and Duquesne. The Saints fell to Robert Morris in a close game, 12-9, on March 12. Junior Alexis Burns put in three goals for the Saints against Nicole Rasickef and freshman Hannah Crosby each scored two goals. Senior Mikela Cassin and Taylor Truttschel each scored one goal as well.

In their game against Duquesne, the Saints dominated once again in their next game on March 17 at Lawrence Tech, winning 21-7. Top performers for the Saints were Terabiski with five goals and Burns and Crosby with four goals apiece. Freshman Jenny Adams also put in two goals for the Saints. For the majority of the time played. In the second half of the game against Duquesne, the Saints were able to close the gap and end the game with a 17-5 win and UMBC.
