Chances for the Class of '19
Aquinas College releases information about the new three-year on-campus housing exemption for incoming freshmen.

By Mariah Cowsert
The Saint Reporter

The partnership with Acadia National Park shows the dedication to service from generations of Aquinas students and staff. This partnership will enable even more generations of students to experience and preserve the natural beauty of Acadia and build lasting friendships through service. Anyone interested in being apart of an Aquinas service trip should reach out to the office of campus ministry for information on what it offers and how students can get involved.

Dominican Charisms in Action

By Maria Connors
The Saint Reporter

Years of student services has created a beautiful service partnership. "The partnership with Acadia National Park shows the dedication to service from generations of Aquinas students and staff. This partnership will enable even more generations of students to experience and preserve the natural beauty of Acadia and build lasting friendships through service. Anyone interested in being apart of an Aquinas service trip should reach out to the office of campus ministry for information on what it offers and how students can get involved."

Saying "You're from Aquinas?" I laughed and told them to think of me as a volunteer coordinator at Acadia for over 20 years, has even made a visit to Aquinas himself. The partnership with Acadia National Park shows the dedication to service from generations of Aquinas students and staff. This partnership will enable even more generations of students to experience and preserve the natural beauty of Acadia and build lasting friendships through service. Anyone interested in being apart of an Aquinas service trip should reach out to the office of campus ministry for information on what it offers and how students can get involved."

Robbery on campus reminds students to take safety precautions
By Mac Miller
Editor-in-Chief

An Aquinas student was robbed at gunpoint on Saturday, November 15 near Hruby Hall facing Fulton Street.

According to the Grand Rapids Police Department and Aquinas Campus Safety, a male student was robbed at approximately 6:25 a.m. Saturday evening by an African American male. The suspect threatened the student with a caliber handgun and got away with the student's belongings.

"Crimes like this are a reminder to not let your guard down," said Kevin Kwiatkowski, Director of Campus Safety. "We need to remain on the lookout and not be complacent."

The Grand Rapids Police Department is urging students to be aware of their surroundings and not leave belongings unattended.

Police Department and Aquinas Campus Safety are urging students to remember that lockdown was lifted around 7:15 P.M. due to daylight savings, Campus Safety is urging students to remember the Campus Safety website.

According to Grand Rapids Lt. Mark Mathis, a K-9 unit tracked the suspect just north of campus and the suspect is still at large.

With the new three-year housing exemption policy implemented in the coming years, students will be ready to live off campus. Nonetheless, Kwiatkowski is unsure about the policy being put into action.

"The data shows that this is the best decision to make at this time," said Kwiatkowski. "The dough is done, but we won't know the outcome until we wait and see."

"The data just shows that the best decision to make at this time," said Kwiatkowski. "The dough is done, but we won't know the outcome until we wait and see."

In the nonprofit sector was in 2003. Before the book, Moore and Epperly "had a strong Catholic point of view and dreamed of a grand project," as Moore put it. Epperly had long wanted to tell the story of the variety of nonprofits, which serves by these agencies, once they changed by the agency. Beginning in February 2014, the two women interviewed and researched their chosen nonprofits, and by June they began writing.

Writing stories about clients can be challenging and humbling and inspiring; we heard stories from people who were able to overcome challenges through determination and remarkable perseverance.

Moore and Epperly's book was published in October—a total of ten months from conception to print. They had stopped paying attention to Ripple Effects because we found out that a lot of people who have been served by these agencies, once they changed by the agency. Beginning in February 2014, the two women interviewed and researched their chosen nonprofits, and by June they began writing.

The Saint Reporter

Shocked by a mob of tens of thousands of protesters who took to the streets to protest with their spirituality, to say a prayer for those who seek guidance from the school and to express their beauty of a building from which to start the process of finding rooms. It is the belief of the people who served by these agencies, once they changed by the agency. Beginning in February 2014, the two women interviewed and researched their chosen nonprofits, and by June they began writing.

The Jane Doe Project inspires students again

By Alysia Pitz

The Jane Doe Project is a yearly event put on by the Women's Studies Center here at Aquinas College. The event typically takes place in the spring and is usually held in November. The event was held last year on November 19 at the Women's Studies Center.

As stated in 2009 by Cheya Badowski for the Student News, the Jane Doe Project’s original goal was to encourage people to reach out and assist. Both college and community students continued the tradition every year.

This year, the student director was Erica Utter who worked hard to continue Jane Doe’s legacy and goals.

"It’s a way to make a difference," said Jane Doe Club president, Hayley Harkins. "It’s about helping others and creating a safe environment for people to be involved."

The Jane Doe Project took the form of a one-man show performed by one actor who played various characters throughout the story. The show was a one-person performance that included music, dance, and poetry.

The show followed the story of a young girl who was raped and had to deal with the consequences of her assault. She was forced to confront her own fears and insecurities as she tried to rebuild her life.

"It’s about empowering people to speak up and stand up for themselves," said Harkins. "It’s about breaking the silence and ending the cycle of violence against women."

Growing up, I spent a lot of time with one girl in particular. We were best friends. We talked about our futures, and I still talk to her often. Her name is Bobbi, she is 31 years old and she has been telling me since I was a little girl that she never wanted children. She didn’t want to get married either, so she’s significant other really wanted to. I couldn’t wrap my head around not having a husband and children.

As I got older, I started to understand where she was coming from. It wasn’t right, but I do think that she follows that way of life. We started having in-depth conversations about why we didn’t want children. They weren’t pretty reasons like “I don’t want to take care of someone else’s lemon.” We decided that—I knew she was having a hard time being married for a good life. She has no problem being single. Even though she has a part time job, she is able to be in a seconds notice if she plans. For her, it was about not being tied down. She likes having the ability to leave in a second’s notice if something happens. And she knew that at a young age. When she turned 18, she already knew she was going to be a hysterectomy. They all told her that she wouldn’t want children.

No doctors will give her the surgery, as long as she knows she doesn’t want children, and she is excited by the thought of having to birth control until she is ready. Before her hysterectomy, she could have all or part of her ovaries removed, making it impossible to have children. The doctors said these are risks that come along with every surgery… That’s the point though. There are risks that come along with every surgery, every medication, and every other medical practice. She is also facing the possibility of surgery with no legitimate reason. Thus, the President was fortunate to be survived by several children, grandchildren, and great grandchildren, including President Olivarhe. Of his father, Dr. Olivarhe said “he was a kind and gentle man… a great role model. He was a proud man always teaching us to be good citizens.” Olivarhe was a kind and gentle man... a great role model. He was served in World War II before working as a pipefitter in Chicago with Inland Steel Company for 25 years. Upon retirement, he moved to Texas and remained there for 31 years.

### Foo Fighters live up to expectations on new album

Recently, the Foo Fighters announced that their new album, "Sonic Highway," is due out in the fall. The band is known for their ability to blend punk, rock, and pop influences into their music, and fans are excited to see what they have in store for their latest release.

#### Foo Fighters redeem themselves

The Foo Fighters are a band that has been around for over two decades and has released several albums. Their latest album, "Sonic Highway," is their first release in a few years, and fans are eagerly awaiting its arrival.

#### What fans can expect

The album features a mix of rock and roll tracks and also includes some acoustic numbers. Fans can expect to hear songs that showcase the band's signature sound, as well as some new musical directions that they might not have expected.

#### Why fans should check it out

If you're a fan of the Foo Fighters or rock music in general, "Sonic Highway" is definitely an album you won't want to miss. It's sure to be a hit with both longtime fans and those who are new to their music.

### Media and Pop culture

Kim Kardashian famously once wore jeans to pose for the infamous Paris Match photo shoot. She later posted a photo of her cellulite thighs on Twitter, leading to an appearance on the cover of Harper's Bazaar. This scandal has caused her to refine her personal style, and she is now more self-conscious about her figure.

#### Kim Kardashian's cellulite thighs

Kim Kardashian's cellulite thighs were on display for the first time when she appeared on the cover of Harper's Bazaar. The celebrity has since become more self-aware and has even posted a photo of her cellulite thighs on Twitter, leading to an article in Harper's Bazaar. This has caused Kim to be more self-conscious about her figure.
Interstellar is out of this world

Artistic Spotlight: J. Fernandez

Memorette now, J. Fernandez recently performed at Fallen Angel's Lumpy Light Music Festival and he is worth a listen.

By Markenzie Murphy

Art Director: J. Fernandez
Graphics by: Kenzie Kauffman, Hay LA, Local Native, Allie Sound
Popular Tracks: "No Luck", "Memorette Now", "Coney Was"

J. Fernandez is crafty. When the Chicago native stepped on stage with his new album "No Luck" at a sold-out Lumpy Light Music Festival last October, he had the audience eating out of his hands with his first song "Memorette Now". With his hypnotizing voice, "Memorette Now" is anything but ordinary. The effect is something you can only marvel at. J. Fernandez's sound was seeking from the start, in an attempt to emerge from the darkness of his new soun...

Interstellar: Take this galaxy to the next, Earth is still the best planet around. Mainly because of Matthew McConaughey's existence.

By Haley Jones
Staff writer

Hollywood has presented us with yet another adventurous sci-fi movie on November 7. But this one in particular has defied the cliché expectations of all the "end of the world" movies—and possibly even space travel itself.

Watching the trailer for Interstellar made me think you know what the movie is about. But really, you have no idea.

Farming, that's what the world has come to. The world doesn't need more engineers; it needs food. Dust covers the Earth, killing everything. The world doesn't need more engineers; it needs food. Dust covers the Earth, killing everything.

The attention this artist deserves is more than just luck. J. Fernandez knows what you want, and he's worth more than a listen.

No one is invincible against this dangerous disease, but we can protect ourselves and avoid spreading the flu to our friends and families by getting vaccinated. Take the Michigan Department of Community Health's Flu Vaccination Challenge and see how your school stacks up to other Michigan campuses.

Interstellar: Take this galaxy to the next, Earth is still the best planet around. Mainly because of Matthew McConaughey's existence.

Anne Hathaway was also named Amelia in her well-known film, Interstellar. A movie in the same way again.

"No luck, no luck, no luck..." Saxophones pulsled behind the dreariness. I looked to the crowd still. J. Fernandez had turned the rowdy around. J. Fernandez had turned the rowdy around. J. Fernandez had turned the rowdy around. J. Fernandez had turned the rowdy around. J. Fernandez had turned the rowdy around. J. Fernandez had turned the rowdy around.
Well, winter is here and that brings snow, which I love. It means that I can finally go outside and play in the snow. My favorite thing to do is to build a snowman and have snowball fights with my friends. We usually build our snowmen in the backyard and then have a big snowball fight. It's a lot of fun and a great way to stay active during the winter.
committed to spirit

By Alyssa Foss

The Aquinas Cheerleading team is ready to make some memories this season. They have been practicing hard since September, right after school started, and are very ready to win some competitions. They will have little time to make their mark, and this season is looking bright for this talented team.

The team has been conditioning—and conditioning some more—preparing to be at their best outside of the season helps build trust when they are working together during competitions.

As a freshman on the team, I feel like the team has been supportive and encouraging. I really appreciate how the seniors are always where they need to be to help each other.

We practice from 3 p.m. to 5 p.m. weekdays. We practice 4 p.m. on Saturdays. We love our team, and we are all very excited to work together to make memories.

The team will be able to communicate well with each other, learn what it takes to have the best way to accomplish goals, and figure out what will go well for us. Hopefully we can make it in to state next year.

We have a tiny team, said Richard. And we could really use a couple more cheerleaders to join us.

We will definitely not be left behind because of the team. But it’s always good to have a leader who you can look to. We are going to make the best of it. We will be able to work together to make memories.
