The voices of the Aquinas Class of 2020
Meet the first-year Senators
By Brooklyn Waggoner
Reporter
At the start of Homecoming weekend, the AQ Student Senate held its Homecoming Coronation Wednesday evening at the Aquinas Center for Performing Arts.

A total of 10 students were nominated to run for the Homecoming Court, which included five girls and five boys. The coronation was moderated by Vincent Anzalone, Vice President of Student Senate, and was attended by the campus community.

The coronation began with each of the nominated students giving a speech, which were followed by questions from the judges. The judges were Dr. Roger Durham, chair of the Political Science department, and Leah O’Gara, chair of Communications.

As a Political Science and History major, Dr. Durham has been a faculty member at Aquinas since 1996, doing what he loves, and he is excited to be involved with the Homecoming Coronation.

"I was excited to be a part of this event because it allows me to connect with students and share my passion for politics and history," Durham said.

Leah O’Gara, chair of Communications, also expressed her excitement to be involved in the coronation.

"I am looking forward to seeing which students are chosen for the Homecoming Court," O’Gara said.

After the coronation, the Homecoming Court was announced as follows: Seniors Nick Gregory, Matt Majinska, Maria Fedorowicz, and Grayson Harding, and Freshman Nicole Jarvis, Piper Nugent, Alyssa Chartier, Matt Majinska, and Zachary Velasco.

"The Homecoming Coronation is an important event for the student body and it is always exciting to see who is chosen for the Homecoming Court," Durham said.

"I am thrilled to be a part of this event and I am excited to see what the future holds for these students," O’Gara said.
**Aquinas: AQ Theatre puts on "As You Like It"**

The Aquinas production of "As You Like It" will run from Oct. 6 to Oct. 8. The Shakespeare production is the first in an annual tradition that began last year. The students will have the fun of performing a Shakespearean comedy as they explore the characters and story lines. "As You Like It" has been highly anticipated, and it is expected to sell out quickly. The play will be performed in the Enlarged Auditorium on Oct. 6 to Oct. 8. For more information, you can call 496-2975 and a discount is available with a student ID.

---

**Aquinas to Overdue "Take Back the Tap"**

Gina Barreca Overdue to "Take Back the Tap"  "Aquinas students can get involved in different ways to help the environment on campus. They can participate in the Encore program, which is an initiative to encourage students to bring reusable water bottles to campus. Aquinas has no partial or full ban on water bottles, so students hope this will change soon. According to Food & Water Watch, tap water is a safer and more sustainable alternative to bottled water. It might be beneficial to take the time to rid of plastic water bottles and instead use reusable water bottles. Not like any of us need to save the earth..."
Service and assistance animals at Aquinas

By Jane Acton-Rubin

The Americans with Disabilities Act (ADA) "prohibits discrimination against people with disabilities," but does not "guarantee access for individuals with a disability." As stated by ADA regulations, an "assistance animal is defined as "an animal that works, provides service, or gives support by doing work that assists an individual with a disability." The definition says a service animal "is not a pet," according to the Aquinas website and their office are held on second floor in the AB. Help do your part to make our campus more welcoming and make more sustainable choices.

Emotional Support: Requests for service and assistance animals on campus have grown up as students become more aware of them.

"The laws) have become more prevalent as people are aware of them. Within the last five years students have really started to request these accommodations," More importantly than simply abiding by federal laws, both Arceau and Director of Residence Life Julie Brown want to make sure students living on campus are comfortable in their surroundings. "All part of accommodations," Brown said, "is creating success for our students in their living and learning environment." "We want students... to have more choices."

A student looking into getting an approved service or assistance animal must first meet with the Accessibility Services Office, providing proof that the animal has been prescribed by a health care professional or mental health professional. A student must also provide "current documentation of a disability including the animal's professional opinion regarding the relationship between the disability and assistance that will be provided by the animal," according to the policy.

For more information on requesting a service or assistance animal or to read the full policy, you can visit the Accessibility Services page on Aquinas's website, or contact Accessibility Services.

AOS Center for Sustainability is hard at work

By Veronica Burns

The center constantly works with sustainability themes and departments on and off campus to continually reach new goals they set. Maliett spoke about the center's increasing presence saying, "One of the Center for Sustainability's purpose is to incorporate sustainability into every aspect of campus life, therefore we partner with in more and more people on campus. Keeping up with the department's momentum."

Maliett said he works with the department's many accomplishments. "In February, Aquinas competed against both colleges and universities from the U.S. and Canada, and ranked sixth nationally (and first in Michigan) in the Grand Champion category. Aquinas also ranked tenth out of 201 schools in Sierra Club's Cool School Challenge. Currently, we continue to lead the progress the college is making by working on carbon Footprinting and ACCUPPC (College & University Climate Commitment).

They've been keeping busy with various events and planning a variety of upcoming events. Maliett said, "Every month, the center hosts at least one event; we're focused on different aspects of sustainability. Last month, the next Ecomentor Forum will take place at 7 p.m. in the Donnelly Center, in which there will be a discussion about the Fair Housing Center of West Michigan's work. Other equalities include the right to access to service and assistance animals.

An assistance animal is defined as "an animal that works, provides assistance, or gives support by doing work that assists an individual with a disability." Point/Countercpoint: Pokémon GO: Give it a try
By Elizabeth Schoof

When Pokémon GO came out in July, I expected it to be like any other fad. How could a game possibly last for about a few weeks before it fell into the same category as Flappy Bird and Candy Crush? Never mind that it actually launched in May. Pokémon GO is still going. And if I'm being honest, I think that's frightening.

Don't get me wrong. I've been enjoying the game and looking forward to the great new features. For instance, it's quite easy to encourage your kids to exercise and exercise. However, this does not change the fact that it allows individuals to delve deeper into the fantasy world they've always loved. The desire to go out and discover the real world and experience the beauty of nature is not a bad thing. However, the desire to go out and capture imaginary creatures is. Blurring the lines between fantasy and reality is a dangerous thing, especially through a game that can easily transport an individual to Pokémon GO. Rather than pay attention to the people they're with or their current surroundings, players can focus on the objectives of the game.

When people invest their time into something of pure fiction, they risk losing touch with reality. This game's reach is impossible to ignore. It has been linked to depression and other social issues. If players are not careful, they may suffer. This game's reach is only growing. In a society that condemns children for playing video games, it's dangerous to encourage children to play Pokémon GO. It's time to focus more on the world around them. The Aquinas boiler system, for making hot showers few and far between; the new iPhone update, for making it much harder to get into your phone.

HECKLES TO...

Kanye, for being Kanye; Road construction, for making it nearly impossible to get anywhere on time; Anything pumpkin spice, for making everyone more basic than they previously were; Detroit sports, for letting us down year after year; The cold weather, for making it increasingly harder to get out of bed; The Aquinas boiler system, for making hot showers few and far between; The new iPhone update, for making it much harder to get into your phone.
That Early Bird misses... the worm

I've No Kever: That Early Bird occupies a unique niche. A coffee shop co-owned by Matt and Olivia Vargas.

Kaya House has a heart on her pint. On the first floor of The Early Bird, you can find a collection of books that the owner curated to match the coffee shop's theme. The books are on a wide range of topics, from literature to history to science, and are arranged by genre. The shop is decorated in a modern, industrial style, with exposed brick walls and metal accents. The vibe is cozy and welcoming, with comfortable seating and a warm, inviting atmosphere. The Early Bird is a perfect place to relax and enjoy a good cup of coffee, whether you're catching up on some reading or just taking a break.

That Early Bird is open daily from 7 am to 11 pm. They offer a variety of coffee and tea drinks, as well as breakfast and brunch options. The menu includes a range of sandwiches, wraps, soups, and salads. They are also known for their特色的二楼 loft space that can be used for private events and gatherings.

That Early Bird also offers a selection of local and specialty coffee beans, as well as a range of teas, sodas, and juices. They are committed to using fresh, high-quality ingredients, and all of their food is prepared on the premises.

Grouplove’s “Big Mess” is a big hit for 2016.

By Lisa Ponder

It’s happening. We are approaching the time of the beginning of the cold and dark of winter, and it is time to pack up the last of our sun-tan lotion and gather ourselves.

As the audience fills the venue, the band begins to play. The music fills the air and the energy of the crowd is palpable.

The set list for the night is announced, and the audience eagerly awaits the beginning of the performance. The lights dim and the band takes the stage.

The music begins with an upbeat number, and the crowd is immediately on their feet. The energy is electric, and the atmosphere is electric.

As the performance continues, the band interacts with the audience, inviting them to sing along and dance along with the music. The night is filled with moments of joy and excitement as the band performs hit after hit.

But the night is not just about the music. It is also about the community that comes together to support the arts. The venue is packed with people of all ages, from all walks of life, all coming together to celebrate the power of music and art.

As the night comes to a close, the audience is left with a sense of awe and wonder. The performance has been a testament to the power of art and the magic that happens when people come together to create something special. And as the band takes their final bow, the audience erupts into cheers, and the night comes to a close. But the memory of the night will remain etched in the minds of those who were lucky enough to be there.
U.S. Takes Ryder Cup

The United States took the Ryder Cup off the hands of Team Europe this past weekend. The 10-man American team, including the National Champion tournament place took in Chaska, Minnesota.

Men's Hockey

By Kirsten O'Brien

Staff Writer

What better way to start a new year with a goal that challenges you? The Aggies' Women's hockey team entered with a victory against Ohio State. The Aggies' Women's hockey team went on to win the game 5-2. They are looking forward to starting the Season.

Good Old Rocky Top

The University of Tennessee won in overtime against the University of Georgia in football. Tennessee quarterback Joshua Dobbs took the game with 2 touchdowns. The team is currently 2-0 in the SEC.

Hello, Julio

Julio Jones of the Atlanta Falcons had a big game this past weekend. He scored a touchdown and set up a field goal against the Carolina Panthers.

What to Watch: Hockey Gear Up!

The Detroit Lions will take on the Chicago Bears next week. This will be a key game in determining who will make it to the playoffs.

Chicago Women's Hockey Starts Strong

By Charlie Crowley

Sports Editor

After a 1-2 start this season, the World Cup of Hockey made a triumphant return to the hockey world. In a tournament that was hyped up for the past year, the hosting country and favorites Team Canada shined in their opening game. Team Canada is a 9-0 winner over the United States. The game was held in Chaska, Minnesota, and the American team was able to gain an active Facebook and Twitter account to get fans excited for the game. The Michigan team is in the lead for most goals scored. They have more goals scored than any other team in the world.

Detroit Lions: Rough Start

Get rid of grit USA needs skill STAT

By Charlie Crowley

I learned a new phrase while watching "The Late Show" this week. The interaction told me that it’s "a negative perception of oneself that is based in perceived failure or inferiority that is used to explain away personal shortcomings, to avoid financial risk, to judge the world, to justify self-doubt, to justify being afraid, to justify avoidance, to protect from the world, to justify judgment of the world, to justify avoiding the world, to justify judgment of other people’s world, to justify not trying to avoid the world, to justify making an effort to deal with the world, to justify making an effort to deal with other people’s world."

This isn’t necessarily a bad thing. Grit is something that can be developed and improved over time. It’s not something that someone is born with or without. It’s something that can be learned and practiced. It’s a skill that can be improved upon through practice and training.

But the problem with grit is that it’s often used as an excuse. People use grit as a way to avoid responsibility and accountability. They use grit as a way to justify their actions and their inactions. They use grit as a way to justify their failures and their successes. They use grit as a way to justify their own self-worth and their own worth to others.

We need to get rid of grit. We need to stop using it as an excuse. We need to start using it as a skill. We need to start using it as a tool.

NASCAR Round of 12 set

By Charlie Crowley

After another long and wild season, NASCAR has finally hit its stride. In what has proven to be an interesting way to determine the champion of extra orino- man's top, the end of the road has been set to determine the champion of the Sprint Cup. The Chase is a little different; obviously the end goal is to win as many races as possible, but points can be accumulated in a manner by lopsided. The minimum amount of points can win which is why the last three races of the Chase are so important. The first stop is the last big stop for the championship. The last stop is the last big stop for the championship.

The regular season featured strong performances by Kevin Harvick, Kyle Busch, and Martin Truex Jr. Bertoia named head coach By Charlie Crowley

The old adage goes "What happens in Vegas, stays in Vegas." A Mais that is the place is an adult's playground, a place where anything can happen. Gambling... betting... but you can bet on anything. It's a place where you can escape from the norm and have fun. It's a place where you can let loose and enjoy the moment. It's a place where you can have a good time.

But what happens in Vegas can also have consequences. It's a place where you can make mistakes and get into trouble. It's a place where you can lose money and lose money fast. It's a place where you can end up in debt and never be able to pay it back.

That's why it's important to be careful when you're in Vegas. You have to be aware of your surroundings and your actions. You have to be aware of your money and your choices. You have to be aware of your limits and your boundaries.

By Charlie Crowley

This wasn't New York, Chicago, or even Los Angeles. This is a whole different kind of city. A city that's known for its adult entertainment, its adult culture, and its adult lifestyle.

This is Sin City. The place is an adult's playground, a place where anything can happen. It's a place where you can escape from the norm and have fun. It's a place where you can let loose and enjoy the moment. It's a place where you can have a good time.

But what happens in Sin City can also have consequences. It's a place where you can make mistakes and get into trouble. It's a place where you can lose money and lose money fast. It's a place where you can end up in debt and never be able to pay it back.

That's why it's important to be careful when you're in Sin City. You have to be aware of your surroundings and your actions. You have to be aware of your money and your choices. You have to be aware of your limits and your boundaries.

By Charlie Crowley

Championship. And everybody knows that the place is an adult's playground, a place where anything can happen. It's a place where you can escape from the norm and have fun. It's a place where you can let loose and enjoy the moment. It's a place where you can have a good time.

But what happens in the place is an adult's playground, a place where anything can happen. It's a place where you can escape from the norm and have fun. It's a place where you can let loose and enjoy the moment. It's a place where you can have a good time.
